*Om is a sacred sound and a spiritual icon in Indian religions.
It is also a mantra in Hinduism, Buddhism and Jainism.
Om is part of the iconography found in ancient and
medieval era manuscripts,
temples, monasteries and spiritual retreats in Hinduism,
Buddhism, and Jainism.*

*'Om', 'Ohm' or 'Aum' is a sacred sound that is known generally
as the sound of the universe...*

*Elements of the Om Symbol - The Om symbol is a
combination of curves, a crescent and a dot.*

*The meaning of the Om symbol, while purely looking at its visual form,
comes from the states of consciousness that Aum represents.*

Introduction of Vedam Kid's Paradise

The Vedas, like any other scripture, are eternal inspires. They inspire us to lead higher lives. Even if we were to suppose that they may not create an urge towards a greater, nobler life, just the fact that their words have come up from the depths of man's own nature enables them to furnish a channel, a ramework, in which idealism can become operative for the welfare of humanity. Hence this attempts to interpret various aspects of education based on the teachings of the Vedas.

Character building is the main objective of education at Vedam. Here again lies the responsibility of an ideal teacher. According to the Vedas, the best teachers are those who not only teach but also make their pupils worthy citizens possessing noble virtues. Here, at Vedam we associated modern science and technology with ancient Vedic education philosophy as per 21st Century requirements. A child is embraced with moral values and character building by our incredible teachers. We too believe in taking help from guest speakers with proven track record in their different elds, in rural areas students always lack the guidance and coaching to succeed in their professional life.

Directors Message

"Man is made by what he thinks."

Students should be made aware of the fact that we shall have to solve national problems and reshape the destiny of India according to our national ideas, ideals and needs. Mere freedom from the shackles of foreign rule is not enough. The process of education should stimulate students to get firmly convinced that indigenous problems can never be solved with imported ideologies, especially for a nation which has its own enriched and highly evolved cultural and spiritual heritage. The Vedas urge us to endeavor for self-rule.

Jai Shankar Tiwari

"May we endeavor for self-rule"

Here at Vedam, Student are educated to recognize unity in diversity, for that is a distinctive feature of our motherland which has enabled her to remain integrated in terms of the social, cultural and spiritual aspects of evolution, centuries, ultimately to get metamorphosed into a symphony of diverse traditions.
